

WHAT MAKES FROST ORTHODONTICS THE BEST CHOICE FOR ME AND MY FAMILY?

By K. Sims

Orthodontics is a great way to increase your self confidence, improve your dental health and create a beautiful smile you can

Actual Patients of Dr. Stuart L. Frost.

share with everyone you meet. The Damon bracket system has changed the way we can treat orthodontic patients today. This revolutionary system utilizes a unique passive self-ligating bracket, and very light forces to achieve results beyond previously conceived expectations. Orthodontic treatment is now less time consuming and more comfortable than ever before.

We are proud to be premier providers of the Damon System. The Damon System now has two options with either a metal bracket or an esthetically pleasing [clear bracket](#). We would like to invite you to learn more about what this proven technology has to offer. You will see the beginnings of your new smile in the first few weeks of treatment and, in the end, will have a great new smile that will last a lifetime.

[Click here](#) to read more about Treatment at Frost Orthodontics or you can call our office at 480.325.7500 for more information.

DAMON CLEAR BRACKETS Dr. Frost is the only orthodontist in the Southeast valley that has been chosen to introduce this exciting technology to the community. To find out more [click](#) or call the office. 480.325.7500

WHAT YOU THINK MATTERS. Please follow the [link](#) to our patient survey and let us know how we are doing, your favorite things about our practice and how we can make your experience better. You can print the survey and bring it to the office or e-mail it directly to krystal@frostortho.com Thanks for your time & consideration!

CONTEST

Guess How Many & Win a Movie Night!

Guess how many
M & M's are in the jar
in our office to win a
movie night just in
time for Valentine's
Day! Click the [link](#) to

Fact or Fiction?

Answers to your questions

Once braces are removed, my
teeth will remain straight
forever, right?

Wrong. Teeth move throughout
one's lifetime, therefore it is
important to hold on to retainers
and wear them as prescribed by
your orthodontist to maintain a
healthy, beautiful smile.
