

## Dr. Frost Around The Globe: Argentina

From Europe to South America, Dr. Frost has been on the move. Earlier this month, he travelled to Argentina as a keynote speaker at the Damon System Meeting for South America. One of the attendees took some pictures for us so that our patients could see what Dr. Frost is up to when he's not in the office. You'll see Dr. Frost on stage speaking, orthodontists eagerly learning, and people posing with Dr. Frost. In addition to being committed to excellent patient care and treatment, he is dedicated to educating his colleagues and patients and to the advancement of orthodontic technology.

### Next Month...

Dr. Frost will be traveling to Atlanta, GA; Dallas, TX; and Orange County, CA to speak at the Damon System Advanced Courses. [Click here](#) to see his 2010 speaking schedule.

## September is Self-Improvement Month. Why not start with your smile & your style?

by [www.aao.org](http://www.aao.org)

The American Association of Orthodontists (AAO) has teamed with celebrity mom Jennie Garth and stylist Melis Kuris, to prep students and parents for back to school style. Sharing more than just expertise on the season's hot colors or latest kicks, the AAO is teaching students and parents a lesson on the importance of looking and feeling their best - starting with healthy confident smiles.

Here are some back to school style tips:

**Express your smile.** Beautiful, healthy smiles are the must-have accessories of the season. Braces are far from a fashion faux pas; the self-confidence students gain through orthodontic treatment is something they will never grow out of. And with colored elastics options to match any style, braces can also be a form of self expression.

**Tshirts are a basic for every wardrobe.** They are the quintessential for layering and can be used as a personal canvas, displaying graphic art, patterns or funny sayings... Students can be creative with their tee styles and, if inspired, even design their own prints.

**Transform spring and summer styles.** Take that sun dress or skirt

and add a pair of leggings for a new look that's fall-tastic.

**Don't forget your feet.** Flats and graphic sneakers will be gracing the halls this fall. Express personal style through dramatic, bold patterns. Graphics aren't just for tees anymore.

Dr. Stuart Frost has been a member of the AAO since 2000. To learn more about Dr. Frost, [click here](#).

When it comes to fashion, confidence is key.
